fore Vice-Chancellor McCoun. DECISIONS .- Joseph J. Jones vs Charles R. Thorne ; the defendant is proprietor of the Chatham Theatre. Some time since an injunction was obtained by complainant restraining Mr. Thorne from playing two dramas, " The Surgeon of Paris," and the "Carpenter of Rouen," which had been announced at the Chatham. Previous to the injunction being granted, a bond was required in \$1000 to indemnify defendant should the complaint not be well founded .-The bond was given, joindy, by the complaisant (Mr. Jones) and Thomas S. Hamblin. Subsequently the injuncfion was dissolved, and the defendant made application that the bond should be delivered to him in order that he might sue in a court of law or that damages should be assessed by a master. Defendant testifies to having been six weeks in getting the drama up, which was done at great expense, and that the injunction was laid on the evening they were announced to be played, inducing many persons to leave and get their money back, and otherwise causing to him great loss. Ordered that the bond he schwered to defend art, and that the testimony taken before a master may be used by the obligors to show on what ground the bill was

Water Commissioners vs. James Bailey and John Bailey -The defendants owned 100 acres land on the margin of the Croton river, and had the advantage of superior water power. There was a large family of them, consisting of a father and several sons, who had been long and successfully engaged in the manufacture of iron. Their works, how ever, had been carried away by a flood in 1849, and not re-built, owing to a knowledge that the water power would be taken from them. The present is one of the appeals from the award of the assessors, the latter having given to defendants \$6,500 damages for the diversion of the water to the Creton Reservoir, which the Commissioners declare to have been too much. Under all the circumstances of the case the Vice Chancellor considered the amount not to be too high, and confirmed the award, with the remark that it

was not to be considered a precedent for other cases unless they present precisely similar facts. Elizabeth Stuyvesant Champlin and Wm. G. Jones vs. Henry Parrish-Mrs. Elizabeth DePeyster died in 1821. leaving a large estate, and the complainants, in connection with John Clark and Elbert Herring, her executors .- Mr. Clark died, and Mr. Herring removed to another State, in consequence of which he was displaced by the Surrogate. Mrs. Champiin was to have all the income of the property till ber youngest child attained the age of 21 years, aft which the estate was to be divided equally between t children of the two daughters of testatrix (Mrs. C. and Mar-garet de Peyster.) A few months since 6 lots in Greene and Fourth streets, belonging to the estate, were put up at aucton, and bit off by detendant. He subsequently refused to take them, or even to pay the 10 per cent. Seposite, according to the terms of sale. Complaint was made in this Coart to compel him to do so, but he demurred, on the ground that Mr. Herring should have been a party to the proceedings and the tule. Mr. H in answer, offered to be as respected the latter.—Demurrer overruled, with costs, the defendant to have twenty days to put in further answer,

Bechtel & Dreyer vs. Britain M. Cutter, Josiah Montague and Jesse W. Benedict-Tue defendant, B. M. Cutter, states that in July, 1839, being at the time worth \$25,000, he entered into copartnership with Mr. Montague in the dry goods jobbing business, under the firm of Cutter & Montague. Mr. M. had no capital, but possessed excellent business ability. In Jan. 1841, owing to severe losses, they were compelled to make an assignment to Mr. Benedict (to whom they owed a large sum of money for counsel fees) on hehalf of certain creditors, &c. The complainants aver that they hold a judgment against the firm for \$1330, and pray they hold a judgment against the firm for \$1330, and pray that a receiver may be appointed on the assigned property, some real estate, &c. having been made over to another assignee for the benefit of persons named. To this Mr. Cutter replied on oath, that in 1830, being worth \$50,000, he married at Montreal, L. C., a young lady named Goodemough, on whom he previously settled \$10,600—that in the distress of the house of Cutter & Montague he prevailed on her to loan the house \$5,000 giving benefity in had been her to loan the house \$5,000, giving her security as had been alluded to. Gentlemen's Fall Hats.-WARNOCK'S Fall pattern Hats are now offered for sale, comprising the Moleskin, Nutria and Cassimere Beaver PARISIAN STYLE OF HATS.

The attention of gentlemen is particularly invited to the subscriber's beautifully fabricated Silk Hats, better known as "Warnock's Moleskin Hats." This article, since its introduction, has rapidly acquired and successfully maintains its popularity, produced by the subscriber in a manner altogether superior to any of the kind that has been or is now before the public, and is worthy of notice as possessing all the qualities of a superior hat, as lightness, beauty of finish, permanency of color, and capacity for service. That the Moleskin Silk Hat possesses the very elem

studiously aimed at in the production of a perfect article, it needs only to be stated that the foundation or body is manufactured from the finest description of stock, and the plush or covering of the finest quality silk, than which, it will readily be admitted, there is nothing of the nature o fabric more durable. To gentlemen who have not given the above hats a trial, it is remarked that they have been for years the most popular, and are now almost exclusively the fashionable Hat of Paris-this, to say the least, is a streng recommendation. To such gentlemen as have preference for French manufacture, it is remarked that, from the subscriber's observations during a recent visit to the French metropolis, he is enabled to say, that though in one or two particulars the French excel, yet in the main, the article sold by him is superior. The pattern for the fall and winter is at once a model of symmetry and beauty.

This article possesses in a large measure the constituent parts of the most costly, prepared with all their neatsess and exter-nal finish, and are sold at a smill advance upon the cost-

We regret extremely to learn the failure of the American Company. The liabilities are supposed to be about \$500,-000. The Company has suffered heavy losses during the past few years, both by bad debts and by depreciation of its stock of furs. In one year it is said to have lost \$100,000 by the Water-treet furriers. It has also a large stock of furs in London, which are ussaleable, or only at ruisous prices. The sales made in that market have been nearly att at a loss, the prices of fors having been for some years past fiarly desirable; at the present time, for its economy. For lower there than here. The sales yesterday afternoon and to-day reach probably 6 600 bbis, of all kinds, some of it in anticipation of an improvement in prices, as it is the opinion of some well informed factors that the receipts from the interior will soon begin to fall off, and that the lowest point of the market has been reached. This, however, is a point upon which each one has his opinion, and we give it merely as showing what are the opinions of some of the trade. Prices, however, show no imprevement, but there has a decidedly better feeling developed itself; the gradual decline of several days past has been arrested, which of itself indicates more firmness.
